Allan Gray Australia Balanced Fund

4 October 2023

What is this document?

This **Product Disclosure Statement (PDS)** dated 4 October 2023 is a summary of significant information regarding units in the Allan Gray Australia Balanced Fund (the Fund). It contains a number of references to important information in the Allan Gray Information Booklet that forms part of this PDS. You can access the Information Booklet and the target market determinations on the Allan Gray website (allangray.com.au) or request a copy free of charge by calling us on 1300 604 604. You should consider these documents before making a decision about the Fund.

The information in these documents is of a general nature only and does not take into account a person's financial situation or needs. You should obtain financial advice tailored to your personal circumstances before investing in the Fund.

This PDS is intended for investors primarily residing in Australia. If you do not reside in Australia, it is your responsibility to comply with the laws of where you are from or living if you decide to invest in the Fund.

The Fund has been approved under section 65 of the Collective Investment Schemes Control Act 2002 and can be promoted in South Africa. The Fund may also be offered to New Zealand investors under Subpart 6 of Part 9 of the Financial Markets Conduct Act 2013. Before investing, South African and New Zealand investors must read the additional information document for their jurisdiction, available at allangray.com.au/PDS-TMD-documents.

US persons are not generally permitted to invest in the Fund. However, we will accept applications from US persons who are genuine residents of Australia, New Zealand or South Africa. The Fund is not a recognised or authorised collective investment scheme for the purpose of the United Kingdom's Financial Services and Markets Act 2000 and not marketed in the European Economic Area (EEA). Residents in the EEA can only invest under certain circumstances as determined by, and in compliance with, applicable law.

We may update this PDS with changes that are not materially adverse via disclosure on our website.

1. About Equity Trustees Limited

Equity Trustees Limited (Equity Trustees)

Equity Trustees is the Fund's responsible entity and issuer of this PDS. Equity Trustees was established in 1888 by an Act of Victorian Parliament to provide trustee and executor services. It has evolved into a diversified financial services provider offering a broad range of products and services to a large client base. Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's Constitution, the Corporations Act 2001 (Cth) and general trust law. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund.

Allan Gray Australia Pty Ltd ABN 48 112 316 168 (Allan Gray)

Equity Trustees has appointed Allan Gray to invest and manage the Fund's assets according to the investment guidelines in this PDS.

Through Allan Gray, Equity Trustees has engaged Allan Gray's sister entity, Orbis Investment Management Limited (OIML), a member of the Orbis Group, to invest and manage the Fund's non-Australian assets. Information about the Orbis Group is available at orbis.com.au.

The Allan Gray investment philosophy is to take a contrarian approach, apply it consistently and invest for the long term. This approach was started by Dr Allan Gray who founded Allan Gray Ltd in Cape Town in 1973, and later the Orbis Group in 1989. Allan Gray in Australia and its related entities globally, as well as the Orbis Group, are privately owned and share the same investment philosophy. In Australia, Allan Gray was established in 2005.

The Allan Gray investment approach

- Contrarian – we take a contrarian approach to investing by resisting popular trends and uncovering opportunities in areas where nobody else is looking.
- Long-term – we take a long-term view. We are willing to look through short term noise and wait for an investment's value to be realised. In a competitive market, we believe practicing patience can offer a distinct advantage.
- Fundamental – we concentrate on understanding an investment's intrinsic value, and the fundamentals that determine value, rather than trying to forecast the next price move.

2. How the Allan Gray Australia Balanced Fund works

The Fund is a managed investment scheme (also known as a unit trust) which allows you to pool your money with other investors. The Fund is registered with the Australian Securities and Investments Commission (ASIC). Allan Gray has been appointed to manage this pooled money in accordance with the investment guidelines set out in section 5 'How we invest your money'.

Minimum investment and redemption amounts and the cut-off times for processing transactions

| | |
|----------------------|--|
| Initial investments | First time investors can either: <ul style="list-style-type: none">• Invest AUD 10,000 or more in one lump sum; or• Invest AUD 500 or more every month with a regular savings plan. See section 8 'How to apply'. |
| Regular savings plan | Minimum of AUD 500 per month |

Interest that members acquire

When you invest, you buy units in the Fund and you become a member or unit holder. These units give you a beneficial interest in the Fund. You do not, however, have any entitlement to any particular part of the Fund or its assets and you are not entitled to participate in the management or operation of the Fund (except through investor meetings).

Your return will mirror the return of the Fund's underlying investments, after expenses.

There are several ways to invest in the Fund:

- by completing the application form attached to this PDS or online (see section 8 'How to apply')
- through a platform that offers the Fund as an investment option (see section 1.7 of the Information Booklet), or
- through your stockbroker via mFund (see section 1.10 of the Information Booklet).

Pricing of the Fund

Units in the Fund are priced daily based on the Fund's NAV. The price of the units will vary as the market value of the Fund's assets rise or fall. When you invest in the Fund, you will be allocated units at the application (entry) price for the Business day on which we process your application. When you redeem (withdraw), we will redeem your units at the redemption (exit) price for the Business day on which we process your redemption request. At the date of this PDS, the application and redemption price each have a buy/sell spread of 0.20% of the cost of a unit built in. The buy/sell spread is designed to protect existing investors by ensuring that those who invest in, or redeem from, the Fund cover the cost of buying or selling the Fund's underlying securities.

Income distribution frequency and calculation

The Fund intends to distribute its distributable income (if any) on 30 June each year. The Fund's Constitution allows the Fund to make additional distributions.

What is an income distribution?

An income distribution is the payment of the Fund's distributable income to investors. It may include interest, dividends, and realised capital gains. Your distribution is the sum of your proportional entitlement to the Fund's distributable income and will be different from year to year.

Distribution options

You can choose to have your distributions reinvested in the Fund or credited directly to your nominated Australian bank account. If you do not make an election or do not have an Australian bank account, your distributions will be automatically reinvested. Distribution payments to the nominated bank account are generally made within 10 Business days after the end of the distribution period. Unless otherwise agreed, no buy/sell spread applies on distributions that are reinvested. Before investing in the Fund, New Zealand investors must read the 'Fund Information for New Zealand investors' document, which provides more information about how the Fund's distribution reinvestment terms apply to you.

| | |
|---|--|
| Additional investments | Minimum of AUD 1,000 and/or at least AUD 500 per month through the regular savings plan. See section 8 'How to apply'. |
| Redemption | There is no minimum ad-hoc redemption amount. If you are redeeming via a regular redemption plan, a minimum of AUD 500 per month applies. We normally pay redemption proceeds within seven Business days after receipt of a valid redemption request. Under some circumstances, such as if there is a freeze on redemptions, you may not be able to redeem from the Fund when you wish to. |
| Processing applications or redemptions (cut-off times) | If we receive all required application or redemption documents before or at 2pm (Sydney time) on a Business day, we will process the transaction using that day's application or redemption price. Requests received after 2pm (Sydney time) on a Business day or non-Business day will generally be treated as having been received before the cut-off time on the next Business day. Different cut-off times apply if you are transacting via mFund. Please contact Client Services or your stockbroker for more information. See section 8 'How to apply'. |

You should read the important information about:

(1) your general rights and obligations, the Fund's Constitution and our responsibilities, and

(2) investing, managing and redeeming your investment,

in the Information Booklet before making a decision. Go to allangray.com.au/PDS-TMD-documents for a copy of the Information Booklet. The material relating to your rights and obligations dealing with the acquisition and disposal of units may change between the time when you read this PDS and the day when you acquire units in the Fund.

3. Benefits of investing in the Allan Gray Australia Balanced Fund

Please consider whether the expected Fund characteristics suit your investment needs and if you are comfortable with the risks of investing in the Fund. Please seek professional advice before investing.

Significant features of the Fund

The Fund invests in a mix of shares, fixed income, commodity-linked instruments and cash using Allan Gray's active investment approach. At any given time, the Fund will hold a selection of shares and fixed income instruments from around the world that are considered to be most undervalued compared to our assessment of their intrinsic value.

Generally, a significant proportion (around 60%) of the Fund's portfolio is expected to be invested in Australian assets, with the remainder in international assets. Where there are fewer attractive opportunities in Australian investments, or international investments become more appealing, the Fund may become more heavily weighted towards international assets and vice versa. There are no other geographic targets.

Balanced focus

The Fund seeks to balance capital growth, income generation and risk of loss using a diversified portfolio. Primarily the Fund will hold actively-selected equity and debt securities issued by publicly listed companies where we consider that these securities offer value and dividend potential that is superior to the Fund's Benchmark. The Fund may also invest in government bonds, cash, indirectly in commodities like gold through commodity-linked instruments or in unlisted shares. Allan Gray and the Orbis Group will allocate the Fund's portfolio between the different asset classes by looking at their respective potential for capital appreciation and income, and their corresponding level of risk. In doing so, we apply our contrarian, long-term and fundamental mindset – if we consider an asset class to be overvalued, we will invest in another asset class that we believe has the potential to deliver superior returns, with appropriate diversification.

While the Fund has no industrial or market sector investment targets, it is anticipated the Fund will hold:

- 40 – 90% of its NAV in equities
- 10 – 50% of its NAV in fixed income instruments (including bonds, notes and money market instruments) and cash
- 0 – 10% of its NAV in commodity-linked instruments.

The Fund's portfolio may from time to time move outside these ranges in pursuit of the Fund's investment objectives.

Value assessment

Allan Gray and the Orbis Group determine the Fund's holdings within each asset class based on where we find the best value. The Fund will not buy a share or bond simply because it is a component of the Fund's custom Benchmark – it will only be selected if we believe it will increase the Fund's overall total return. In deciding whether a security should be included in the Fund, we compare the price with what we consider to be its true value. The lower the price of the security (for example, because of the company's unexciting or poor short-term prospects) compared to its assessed long-term true value, the more attractive it will be as an investment.

Like equity securities, corporate fixed income instruments are selected with the aim of increasing the Fund's overall total return. Characteristics such as yield, liquidity and potential diversification benefits are considered in light of the Fund's risk and reward profile as a whole. Corporate bonds and notes are largely included in the Fund based on research conducted on the issuing company. Government bonds are also selected in part based on views formed while conducting research on companies and currency trends.

The Fund may also gain indirect exposure to commodities through commodity-linked instruments if our investment research process identifies an investment that is more attractive than overall equity and fixed income opportunities. However, we will not buy a commodity-linked investment if a share or bond can provide exposure to the same underlying commodity in a more attractive manner. The Fund will also not invest in instruments that compel the acceptance of physical delivery of commodities.

Allan Gray believes that, over the long term, investing in undervalued shares and bonds of companies identified through fundamental research offers the potential for steady returns. As a result, the Fund's portfolio will often look different to that of its peers.

You should read the important information about other features of the Fund in the Information Booklet before making a decision.

Go to allangray.com.au/PDS-TMD-documents for a copy of the Information Booklet. The material relating to the Fund's other features may change between the time when you read this PDS and the day you acquire units in the Fund.

Significant benefits of the Fund

Investing in the Fund offers a number of benefits, including:

Access to a time-tested, contrarian investment approach

This Fund combines Allan Gray's domestic specialisation with the Orbis Group's global markets expertise. Both companies have been applying the same contrarian, long-term and fundamental investment philosophy over the long term which Australian investors can access through one single fund.

Flexibility in asset allocation

The Fund's investments are not constrained to particular global markets or industries. In addition, the Fund's allocation to shares, fixed income securities, commodity-linked instruments and cash can change depending on where we see value, and based on the respective potential for capital growth and income, and risk of loss. By having the flexibility to adapt to changing markets conditions, and to vary the Fund's exposure to these different assets over time, we seek to enhance the Fund's long-term returns and to reduce the impact of large market falls.

Access to broad asset mix

The Fund offers investors a simple way to access a broad mix of investments through a single fund, including those that may not be readily identified or available to individual investors.

4. Risks of managed investment schemes

All investments carry risk. Different investment strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risks. The level of returns will vary, and future returns may differ from past returns. The value of investments will vary. This section highlights the significant risks you should consider when deciding whether to invest in the Fund. You may want to consider these risks in light of your risk profile, which will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets, and your risk tolerance.

We do not guarantee the liquidity of the Fund's investments, an investment in the Fund, repayment of capital or any rate of return, or the Fund's investment performance. You may lose money by investing in the Fund or your investment in the Fund may not meet your objectives.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

Market and individual investment risks

Equity and fixed income markets and investments are generally volatile. The value of your investment in the Fund may fluctuate with the market. In addition, losses for the Fund may also not be linked to the market's overall returns. Such losses can arise for reasons specific to a company (e.g. a change in management) or if Allan Gray or the Orbis Group make investment decisions resulting in poor returns.

Fund risk

The Fund could terminate, laws affecting registered managed investment schemes may change in the future, Equity Trustees, Allan Gray or OIML could become insolvent, and the fees and expenses could materially change. Investing in the Fund may give different results than investing directly in securities and instruments because of income or capital gains accrued in the Fund and because of investors redeeming from the Fund.

Liquidity risk

The Fund may, at times, invest in assets which have limited levels of liquidity, such as non-investment grade fixed income securities or unlisted securities. In addition, abnormal or difficult market conditions, inadequate market depth or disruptions to financial markets may result in normally liquid assets becoming illiquid or less liquid. As such, it may not be possible to sell the Fund's investments in time to pay unexpected large redemptions or there could be a significant delay before redemptions are paid. The ability to redeem may be suspended in the interests of all the investors in the Fund, even if other assets of the Fund may be readily sold.

Contractual risk

The Fund's counterparties may default on a transaction or the Fund's custodian may become insolvent. If this occurs, there may be additional costs or time delays associated with settling a transaction or appointing another custodian. This may have an effect on your ability to invest in, or redeem from, the Fund.

Geographic risk

The Fund invests in securities in many international markets, including some considered to be emerging markets. There are significant risks involved in investing internationally, including political and social instability, governmental interference, liquidity risks, currency risks or foreign exchange controls.

Derivatives risk

The Fund may use derivatives such as index futures and options in regions in which the Fund is invested, for example to reduce the risk of loss in the event of a significant decline in the markets. The Fund may also use over-the-counter (OTC) derivatives such as currency forwards to manage foreign exchange risk. Trading in various derivatives exposes the Fund to additional risks, for example it may not be possible to readily liquidate OTC derivatives given the absence of a market, changes in derivative values may not correlate perfectly with the underlying assets, and unexpected movements in market conditions or exchange rates may cause loss.

Credit risk

If issuers of fixed income instruments fail to make principal or interest payments, the Fund can suffer loss. This risk is higher if the Fund holds low-rated, non-investment-grade securities, such as high yield bonds and securities of issuers that are in or at risk of default, or have filed for bankruptcy protection or reorganisation (e.g. distressed debt).

Currency risk

Although the Fund has a significant allocation to Australian assets, fluctuations in exchange rates significantly influence the returns of the Fund's global investments. As a result, significant changes in exchange rates could impact overall returns of the Fund.

Unforeseen event risk

Catastrophes that interrupt the expected course of events, such as natural disasters, war, civil disturbance, acts of terrorism, power outages, health crises and other

unforeseeable and external events, and the public response to our fear of such diseases or events, may have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments.

5. How we invest your money

Fund investment profile

Benchmark

Custom benchmark: 36% S&P/ASX 300 Accumulation Index; 24% S&P/ASX Australian Government Bond Index; 24% MSCI World Index (net dividends reinvested) expressed in AUD; and 16% JPMorgan Global Government Bond Index expressed in AUD.

Investment objective

To seek long-term returns that are higher than the custom Benchmark. In doing so, the Fund aims to balance capital growth, income generation and risk of loss using a diversified portfolio.

Investment exposure

A combination of local and international shares, fixed income, commodity-linked instruments and cash.

Investment approach

The Fund employs the Allan Gray contrarian investment philosophy to search for investments, having regard to defined investment restrictions (see Asset allocation below). The Fund has the ability to take advantage of market movements with wide ranges for investments. When there are fewer opportunities in Australia or global markets become more attractive, the Fund may become more heavily weighted towards global assets and vice versa.

Investor profile

Before you invest, you should consider the likely investment returns, the risk and your investment time frame.

Minimum suggested time frame

More than three years.

Risk level

Medium to high risk.

Investor suitability

The Fund may be suitable for investors:

- who wish to invest in a performance-driven strategy that provides an opportunity for capital growth;
- who seek to diversify their portfolio using a single Fund; and
- who are comfortable taking on some risk of market

fluctuation and potential capital loss, but typically less than that of an equity fund.

Additional information about the investment restrictions

Allan Gray is permitted to make an investment which is not consistent with the investment restrictions if Equity Trustees and Allan Gray agree that the investment is not a material departure from the investment restrictions.

Consideration of labour standards or environmental, social or ethical factors

Equity Trustees has delegated the investment function (including environmental, social and governance (ESG) responsibilities) to Allan Gray and Allan Gray has contemplated that 'Labour, Environmental, Social and Ethical considerations may be taken into account in relation to the investment of the fund'.

As part of our assessment of a company's intrinsic value, Allan Gray examines all factors we consider to be materially relevant to an investment's long-term, sustainable earnings potential, including any ESG factors. Our assessment of whether a factor is material may differ between investments ideas.

Allan Gray assesses whether all identified, material risks (including ESG risks) are reflected in an investment's price. This is done on an ongoing basis and feeds into our continuous assessment of an investment's true value.

Allan Gray will only invest where we consider that the price of an investment is sufficiently discounted to reflect identified risks. Where we consider that there is not a sufficient discount to the price, we may (among other options):

- reject an investment idea;
- take this into account in deciding the position size that we are prepared to hold in a particular investment;
- wait for the price to fall to a level that sufficiently reflects the identified risks; or
- wait to see if management adequately addresses those risks.

Allan Gray may use its platform of ownership to proactively engage with the board and management team to address ESG risks, among other risks. We also seek to exercise the Fund's voting rights effectively. Our guiding principle in respect of each is to act in what we believe to be the long-term financial interest of clients as a whole.

We will incrementally realise an investment when we consider its price is more reflective of our assessment of its intrinsic value.

ESG considerations are not applied in respect of money market instruments and government bonds.

The Orbis Group employ a similar integration process in respect of the international investments.

Asset allocation

In implementing the above strategy, Allan Gray will adhere to the following investment restrictions.

| | |
|----------------------------------|--|
| 1. Single issuer | No more than 20% of the Fund's NAV may be invested in securities and instruments issued by a single issuer. |
| 2. Listed shares | No more than 10% of the Fund's NAV may be invested in shares or equity-linked securities which are not listed or dealt on a stock exchange or stockmarket. |
| 3. No short selling | The Fund must not engage in short selling of securities. |
| 4. Derivatives | The Fund may hold no more than 10% of its NAV in listed (exchange-traded) derivatives and only if the underlying exposure is fully covered by cash or money market instruments. The Fund must not hold OTC derivatives, other than for the dominant purpose of managing foreign exchange risk or interest rate risk. In using currency derivatives, the Fund may not actively cause net negative currency exposures. |
| 5. Borrowing | The Fund cannot borrow unless it is to meet unexpected large redemptions. Borrowing is limited to 10% of the Fund's NAV and must be repaid within 90 days. |
| 6. Collective investment schemes | The Fund must not invest in unlisted collective investment schemes. No more than 35% of the Fund's NAV may be invested in listed collective investment schemes managed by the same group. |

6. Fees and costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from AUD 100,000 to AUD 80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website (moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Fees and Costs Summary

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see section 7 'How managed investment schemes are taxed'.

Allan Gray Australia Balanced Fund

| Type of fee or cost | Amount | How and when paid |
|---|--|---|
| Ongoing annual fees and costs¹ | | |
| Management fees and costs² The fees and costs for managing your investment | 0.76% of the NAV of the Fund | The management fees component of management fees and costs are accrued daily and paid from the Fund monthly in arrears and are reflected in the unit price. |
| Performance fees Amounts deducted from your investment in relation to the performance of the product | 0.00% of the NAV of the Fund ³ . A performance fee is calculated at a rate of 20.3% of the Fund's outperformance, net of the management fees and costs, in comparison to its Benchmark. A performance fee is only accrued and payable where the Fund's outperformance exceeds the high water mark, which represents the highest level of outperformance, net of management fees and costs, since the Fund's inception. | Performance fees are calculated daily and paid monthly in arrears from the Fund and are reflected in the unit price. |
| Transaction costs The costs incurred by the scheme when buying or selling assets | 0.04% of the NAV of the Fund | Transaction costs are variable and deducted from the Fund as they are incurred and reflected in the unit price. They are disclosed net of amounts recovered by the buy-sell spread. |
| Member activity related fees and costs (fees for services or when your money moves in or out of the scheme) | | |
| Establishment fee The fee to open your investment | Not applicable | Not applicable |
| Contribution fee The fee on each amount contributed to your investment | Not applicable | Not applicable |
| Buy-sell spread An amount deducted from your investment representing costs incurred in transactions by the scheme | 0.20% upon entry and 0.20% upon exit | These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding redemptions from the Fund and are not separately charged to the investor. The buy spread is paid into the Fund as part of an application and the sell spread is left in the Fund as part of a redemption. |
| Withdrawal fee The fee on each amount you take out of your investment | Not applicable | Not applicable |
| Exit fee The fee to close your investment | Not applicable | Not applicable |
| Switching fee The fee for changing investment options | Not applicable | Not applicable |

1. All fees quoted are inclusive of Goods and Services Tax (GST) and net of any RITC. See below for more details as to how the relevant fees and costs are calculated.

2. The management fee component of management fees and costs can be negotiated. See 'Differential fees' in the Information Booklet.

3. The reasonable estimate of the performance fee is based on the average of the actual performance fees paid for the Fund over the previous five financial years, which is payable as an expense of the Fund to Allan Gray as the investment manager.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.76% p.a. of the NAV of the Fund is payable to Equity Trustees and Allan Gray for overseeing the operations of the Fund and managing its assets. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Equity Trustees' responsible entity fees, independent custodian fees, administration fees, audit fees, as well as customary professional fees incurred by the Fund on a day-to-day basis. Aside from these ordinary expenses, investors may bear certain extraordinary and unusual expenses incurred on behalf of the Fund from time to time, such as the cost of litigation.

Performance fees

The performance fees include amounts that are calculated by reference to the performance of the Fund.

A performance fee is calculated at a rate of 20.3% of the Fund's outperformance, net of the management fees and costs, in comparison to the Fund's Benchmark. A performance fee is only accrued and payable where the Fund's outperformance exceeds the high water mark, which represents the highest level of outperformance, net of management fees and costs, since the Fund's inception. Performance fees are calculated daily and paid monthly in arrears from the Fund and are reflected in the unit price.

The reasonable estimate of the performance fee is 0.00% and is based on the average of the actual performance fees paid for the Fund over the previous five financial years, which is payable as an expense of the Fund to Allan Gray as the investment manager.

Please note that the performance fees disclosed in the Fees and Costs Summary are not a forecast as the actual performance fee for the current and future financial years may differ. Equity Trustees and Allan Gray cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will exceed the Fund's Benchmark.

It is not possible to estimate the actual performance fee payable in any given year, as we cannot forecast what the performance of the Fund will be. Information on current performance fees will be updated from time to time and be made available at allangray.com.au/PDS-TMD-documents.

Financial adviser fees

You may elect to have the Fund pay your financial adviser a fee from your investment in the Fund. This may be:

- a contribution fee of up to 2% when you invest in the Fund, and/or
- an ongoing fee of up to 1% p.a. We cannot pay fees to your financial adviser if you invest via mFund.

Note: The financial adviser you consult may charge you additional fees. Please refer to the adviser's statement of advice.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current total management fee to which Equity Trustees and Allan Gray are entitled is 0.76% of the NAV of the Fund. We will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs.

mFund

Warning: If you are transacting through mFund, your stockbroker or accredited intermediary may charge you additional fees (see their Financial Services Guide).

You should read the important information in the Information Booklet about other fees and costs before making a decision.

Go to allangray.com.au/PDS-TMD-documents for a copy of the Information Booklet. The material relating to these matters may change between the time when you read this PDS and the day you acquire units in the product.

Example of annual fees and costs

This table gives an example of how the ongoing annual fees and costs in the Fund can affect your investment over a one-year period. You should use this table to compare this product with other products offered by managed investment schemes.

| Example | Balance of AUD 50,000 with a contribution of AUD 5,000 during the year | |
|--------------------------------|--|--|
| Contribution fees | Nil | For every additional AUD 5,000 you put in, you will be charged AUD 0. |
| PLUS Management fees and costs | 0.76% | And for every AUD 50,000 you have in the Fund you will be charged or have deducted from your investment AUD 380 each year. |
| PLUS Performance fees | 0.00% | And, you will be charged or have deducted from your investment AUD 0 in performance fees each year. |
| PLUS Transaction costs | 0.04% | And, you will be charged or have deducted from your investment AUD 20 in transaction costs. |
| EQUALS cost of fund | 0.00% | If you had an investment of AUD 50,000 at the beginning of the year and you put in an additional AUD 5,000 during that year, you would be charged fees and costs of: AUD 400*. What it costs you will depend on the investment option you choose and the fees you negotiate. |

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the buy/sell spread. These examples assume the AUD 5,000 additional contribution occurs at the end of the first year, therefore the fees and costs are calculated on the AUD 50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on the average performance fee for the Fund, generally over the previous five financial years. The performance of the Fund for this financial year, and the performance fees, may be higher or lower or not payable in the future. It is not a forecast of the performance of the Fund or the amount of the performance fees in the future. The other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice before investing in the Fund. The Fund is an Australian resident for tax purposes and does not pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund.

The Fund has been treated as an Attribution Managed Investment Trust since the 2019/2020 income year. Investors receive a tax statement at the end of each income year specifying the nature of any amounts attributed. This statement also highlights any adjustments you should make to the cost base of the units you hold due to distributions from the Fund and income attributed.

8. How to apply

How to make an initial investment

- Invest online: visit allangray.com.au/balancedfund, click on 'Invest now' and follow the instructions, or
- Complete the application form accompanying this PDS, as well as the customer identification form. Identification documents are needed to comply with Australia's AML/CTF laws.
 - Post the original application, identification forms and relevant identification documents to the Allan Gray Funds Unit Registry, GPO Box 804, Melbourne VIC 3001.
 - Transfer the application money electronically to the Fund. The Fund only accepts application money in Australian dollars, or
- Invest through a stockbroker via mFund or through a platform. To do so, you will need to provide certain identification documents and the application money to your stockbroker or the platform operator instead of directly to the Fund. Additional fees may apply. Please contact your stockbroker or the platform operator for more information.

How to make an additional investment

- Visit allangray.com.au/balancedfund, click on 'Investor top up' and follow the instructions, or
- Complete an additional investment form, available from allangray.com.au, and follow the instructions on the form, or
- Invest through your stockbroker via mFund or through your chosen platform.

Sending your application and redemption forms and any other forms or documents to us by post, email or over the internet means you agree to the Instruction Terms set out in section 3.6 of the Information Booklet.

Cooling-off rights and complaints

If you are a retail client (as defined in the Corporations Act) and invested directly in the Fund (including via mFund), you have up to 14 days from the day you receive the investment confirmation for your investment to be repaid. The amount you receive will reflect the movement (up or down) in the Fund's unit price and may have tax implications for you.

If you wish to make a complaint, please write to Equity Trustees' compliance team or call +61 3 8623 5000.

You should read the important information about:

- (1) your general rights and obligations, the Fund's Constitution and our responsibilities, and
- (2) investing, managing and redeeming your investment, in the Information Booklet before making a decision.

Go to allangray.com.au/PDS-TMD-documents for a copy of the Information Booklet. The material relating to your rights and obligations dealing with the acquisition and disposal of units may change between the time when you read this PDS and the day when you acquire units in the Fund.

Important notices

In this document:

'AML/CTF' means Anti-Money Laundering and Counter-Terrorism Financing.

'ASX' means the Australian Securities Exchange operated by ASX Limited.

'Benchmark' means the custom benchmark comprising: 36% S&P/ASX 300 Accumulation Index; 24% S&P/ASX Australian Government Bond Index; 24% MSCI World Index (net dividends reinvested) expressed in AUD; and 16% JPMorgan Global Government Bond Index expressed in AUD.

'Business day' means a day (other than Saturday, Sunday or a public holiday) on which banks are open for business in Sydney.

'Fund' means the Allan Gray Australia Balanced Fund, ARSN 615 145 974, APIR code ETL4654AU.

'mFund' means a settlement service of the ASX that allows you to apply for or redeem units in the Fund. This service does not allow you to buy or sell units in the Fund on the ASX, like you could do with an ASX listed security.

'NAV' means net asset value.

'RITC' means Reduced Input Tax Credits that, where claimed, reduce the GST cost borne by the Fund.

'US persons' is defined in the Information Booklet.

'We', 'us' or 'our' refers to Equity Trustees Limited ABN 46 004 031 298, AFSL No 240975, as the Fund's responsible entity and issuer of this PDS, Allan Gray Australia Pty Ltd, ABN 48 112 316 168, AFSL No 298487, as the Fund's investment manager and Orbis Investment Management Limited, as manager of the Fund's non-Australian assets, unless the context requires otherwise.

'You' or 'your' refers to investors in the Fund and where the context requires, prospective or new investors to the Fund.

About this document

This document contains important information for New Zealand investors about the Allan Gray Australia Balanced Fund (the Fund). You should read this document and the accompanying Product Disclosure Statement (PDS) for the Fund before investing.

Warning statement

- This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.
- This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.
- There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.
- The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.
- Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (fma.govt.nz). The Australian and New Zealand regulators will work together to settle your complaint.
- The taxation treatment of Australian financial products is not the same as for New Zealand financial products.
- If you are uncertain about whether this investment is appropriate for you, you should seek the advice of a financial advice provider.
- The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.
- If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

Distributions

New Zealand investors can only have their distributions reinvested, except where they nominate an Australian bank account in their name to receive cash distributions. When a distribution is reinvested, New Zealand investors will be issued units in accordance with the terms and conditions set out in the PDS for the Fund. Please see the PDS for a description of distributions and the terms and conditions of reinvestment.

The annual report and financial statements of the Fund contain information you may find useful in connection with your ongoing distribution reinvestment. You can obtain a copy of the most recent annual report and financial statements of the Fund, and the accompanying auditor's report, free of charge by contacting the Responsible Entity or the Allan Gray Client Services team. These documents may also be obtained electronically from eqt.com.au

Custodian attestation

If you are a company completing this form on behalf of an individual, another company, a trust or other entity, as its Custodian, please complete this section.

“Custodian” means a company that:

a) is acting in the capacity of a trustee; and

- b) is providing a custodial or depository service of the kind described in item 46 of table 1 in subsection 6(2) of the Anti-Money Laundering and Counter-Terrorism Financing Act 2006 (AML/CTF Act); and
- c) either:
- i. holds an Australian financial services licence authorising it to provide custodial or depository services under the Corporations Act 2001; or
 - ii. is exempt under the Corporations Act 2001 from the requirement to hold such a licence; and
- d) either:
- i. satisfies one of the ‘geographical link’ tests in subsection 6(6) of the AML/CTF Act; or
 - ii. has certified in writing to the relevant reporting entity that its name and enrolment details are entered on the reporting entities roll; and
- e) has certified in writing to the relevant reporting entity that it has carried out all applicable customer identification procedures and ongoing customer due diligence requirements in accordance with Chapter 15 of the AML/CTF Rules in relation to its underlying customers prior to, or at the time of, becoming a customer of the reporting entity.

A) Do you meet the definition of a Custodian (as set out above)?

 Y N

B) Do you, as a Custodian, attest that prior to requesting this designated service from us, you have carried out and will continue to carry out, all applicable customer identification procedures on your underlying account holder, including ongoing customer due diligence in accordance with Chapter 15 of the AML/CTF rules?

 Y N

If you answered YES to the above questions, then we are able to apply the Chapter 4, part 4.4 Custodian rules to this account and will rely upon the customer due diligence conducted by you, as Custodian, on the underlying account holder.

C) You agree to honour any reasonable request made by us for information or evidence about the underlying account holder, in order to allow us to meet our obligations under the AML/CTF Act.

 Y N

Except where you have answered NO or did not complete any of the above questions, no other information about the underlying account holder is required to be collected. However, further information about you as the Custodian and as a company is required to be collected and verified as required by the AML/CTF rules. Please complete the rest of this form for you, as Custodian.

If you answered NO or did not complete any of the above questions, we are unable to apply the Chapter 4, part 4.4 Custodian rules to this application. We are therefore obligated to conduct full Know Your Client procedures on your underlying account holder including any named nominee, as well as the trustees, beneficial owners and controlling persons of the underlying named account, in addition to you as Custodian. Therefore, please complete the relevant forms and provide identity documents for all parties connected to this account.

6. Trusts or superannuation funds

Please complete if you are investing as a trust or superannuation fund. The Trustee(s) must complete section 3 or section 5. You will also need to complete the FATCA and CRS Self-Certification form at the back of this form. Australian regulated super funds (Self-managed superannuation funds, APRA regulated superannuation funds, Australian Government or Semi-Government superannuation funds or pooled superannuation trust) do not need to complete the FATCA and CRS Self-Certification form.
