### Allan Gray Australia Equity Fund – Class B

4 October 2023

#### What is this document?

This Product Disclosure Statement (PDS) dated 4 October 2023 is a summary of significant information regarding Class B units in the Allan Gray Australia Equity Fund (the Fund). It contains a number of references to important information in the Allan Gray Information Booklet that forms part of this PDS. You can access the Information Booklet and the target market determinations on the Allan Gray website ([allangray.com.au](http://allangray.com.au)) or request a copy free of charge by calling us on 1300 604 604. You should consider these documents before making a decision about the Fund.

In this PDS, a reference to units in the Fund is a reference to Class B units in the Fund.

The information in these documents is of a general nature only and does not take into account a person's personal financial situation or needs. You should obtain financial advice tailored to your personal circumstances before investing in the Fund.

This PDS is intended for investors primarily residing in Australia. If you are not resident in Australia, it is your responsibility to comply with the laws of where you are from or living if you decide to invest in the Fund.

The Fund has been approved under section 65 of the Collective Investment Schemes Control Act 2002 and can be promoted in South Africa. The Fund may also be offered to New Zealand investors under Subpart 6 of Part 9 of the Financial Markets Conduct Act 2013. Before investing, South African and New Zealand investors must read the additional information document for their jurisdiction, available at, [allangray.com.au/PDS-TMD-documents](http://allangray.com.au/PDS-TMD-documents).

US persons are not generally permitted to invest in the Fund. However, we will accept applications from US persons who are genuine residents of Australia, New Zealand or South Africa. The Fund is not a recognised or authorised collective investment scheme for the purpose of the United Kingdom's Financial Services and Markets Act 2000 and is not marketed in the European Economic Area (EEA). Residents in the EEA can only invest under certain circumstances as determined by, and in compliance with, applicable law.

We may update this PDS with changes that are not materially adverse via disclosure on our website.

## 1. About Equity Trustees Limited

### Equity Trustees Limited (Equity Trustees)

Equity Trustees is the Fund's responsible entity and issuer of this PDS. Equity Trustees was established in 1888 by an Act of Victorian Parliament to provide trustee and executor services. It has evolved into a diversified financial services provider offering a broad range of products and services to a large client base. Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's Constitution, the Corporations Act 2001 (Cth) and general trust law. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund.

### Allan Gray Australia Pty Ltd ABN 48 112 316 168 (Allan Gray)

Equity Trustees has appointed Allan Gray to invest and manage the Fund's assets according to the investment guidelines in this PDS.

The Allan Gray investment philosophy is to take a contrarian approach, apply it consistently and invest for the long term. This approach was started by Dr Allan Gray who founded Allan Gray Ltd in Cape Town in 1973. Allan Gray in Australia, and its related entities globally, are privately owned and share the same investment philosophy. In Australia, Allan Gray was established in 2005.

#### The Allan Gray investment approach

- Contrarian – we take a contrarian approach to investing by resisting popular trends and uncovering opportunities in areas where nobody else is looking.
- Long-term – we take a long-term view. We are willing to look through short-term noise and wait for an investment's value to be realised. In a competitive market, we believe practicing patience can offer a distinct advantage.
- Fundamental – we concentrate on understanding an investment's intrinsic value, and the fundamentals that determine value, rather than trying to forecast the next price move.

## 2. How the Allan Gray Australia Equity Fund works

The Fund is a managed investment scheme (also known as a unit trust) which allows you to pool your money with other investors. The Fund is registered with the Australian Securities and Investments Commission (ASIC). Allan Gray has been appointed to manage this pooled money in accordance with the investment guidelines set out in section 5 'How we invest your money'.

### Interest that members acquire

When you invest, you buy Class B units in the Fund and you become a member or unit holder. These units give you a

beneficial interest in the Fund. You do not, however, have any entitlement to any particular part of the Fund or its assets and you are not entitled to participate in the management or operation of the Fund (except through investor meetings). Your return will mirror the return of the Fund's underlying investments, after expenses.

There are several ways to invest in the Fund:

- by completing the application form attached to this PDS or online (see section 8 'How to apply')
- through a platform that offers the Fund as an investment option (see section 1.7 of the Information Booklet),

### Pricing of the Fund

Units in the Fund are priced daily based on Class B's share of the Fund's net asset value. The price of the units will vary as the market value of the Fund's assets rise or fall.

When you invest in the Fund, you will be allocated units at the Class B application (entry) price for the Business day on which we process your application. When you redeem (withdraw), we will redeem your units at the Class B redemption (exit) price for the Business day on which we process your redemption request. At the date of this PDS, the application and redemption price each have a buy/sell spread of 0.20% of the cost of a unit built in. A buy/sell spread does not apply if you switch your investment between different classes of units within the Fund. The buy/sell spread is designed to protect existing investors by ensuring that those who invest in, or redeem from, the Fund cover the cost of buying or selling the Fund's underlying securities.

### Income distribution frequency and calculation

The Fund intends to distribute its distributable income (if any) on 30 June each year. The Fund's Constitution allows the Fund to make additional distributions.

### What is an income distribution?

An income distribution is the payment of the Fund's distributable income to investors. It may include interest, dividends, and realised capital gains. Your distribution is the sum of your proportional entitlement to the Fund's distributable income and will be different from year to year.

### Distribution options

You can choose to have your distributions reinvested in the Fund or credited directly to your nominated Australian bank account.

If you do not make an election or do not have an Australian bank account, your distributions will be automatically reinvested. Distribution payments to the nominated bank account are generally made within 10 Business days after the end of the distribution period. Unless otherwise agreed, no buy/sell spread applies on distributions that are reinvested.

Before investing in the Fund, New Zealand investors must read the 'Fund Information for New Zealand investors' document, which provides more information about how the Fund's distribution reinvestment terms apply to you.

### Minimum investment and redemption amounts and the cut-off times for processing transactions

<b>Initial investments</b>	First time investors can either: <ul style="list-style-type: none"><li>• Invest AUD 10,000 or more in one lump sum; or</li><li>• Invest AUD 500 or more every month with a regular savings plan. See section 8 'How to apply'.</li></ul>
<b>Additional investments</b>	Minimum of AUD 1,000 and/or at least AUD 500 per month through the regular savings plan. See section 8 'How to apply'.

<b>Redemption</b>	There is no minimum ad-hoc redemption amount. If you are redeeming via a regular redemption plan, a minimum of AUD 500 per month applies. We normally pay redemption proceeds within seven Business days after receipt of a valid redemption request. Under some circumstances, such as if there is a freeze on redemptions, you may not be able to redeem from the Fund when you wish to.
<b>Processing applications or redemptions (cut-off times)</b>	If we receive all required application or redemption documents before or at 2pm (Sydney time) on a Business day, we will process the transaction using that day's application or redemption price. Requests received after 2pm (Sydney time) on a Business day or non-Business day will generally be treated as having been received before the cut-off time on the next Business day. See section 8 'How to apply'.

**You should read the important information about:**

- (1) your general rights and obligations, the Fund's Constitution and our responsibilities, and
- (2) investing, managing and redeeming your investment,

in the Information Booklet before making a decision. Go to [allangray.com.au/PDS-TMD-documents](http://allangray.com.au/PDS-TMD-documents) for a copy of the Information Booklet. The material relating to your rights and obligations dealing with the acquisition and disposal of units may change between the time when you read this PDS and the day when you acquire units in the Fund.

### 3. Benefits of investing in the Allan Gray Australia Equity Fund

Please consider whether the expected Fund characteristics below suit your investment needs and if you are comfortable with the risks of investing in the Fund. Please seek professional advice before investing.

#### Significant features of the Fund

##### Fully invested

The Fund aims to be fully invested in the Australian sharemarket so that there are no prolonged periods where the Fund will hold more than 10% of its assets in cash.

##### Access to a time-tested, contrarian investment approach

The Fund adopts a contrarian investment approach which sees it going against current market trends, buying an investment that offers long-term value when we believe it's undervalued in a less optimistic environment, with a view to then selling it if and when the market recognises the investment's potential and it reprices. By investing for the long term, we look past the short-term market noise and wait patiently for a security's value to improve.

Allan Gray believes bottom-up research is key to finding true value. We do not rely on macro forecasting or third parties. Rather, our team of analysts undertakes its own rigorous research into each individual company to find hidden value for the Fund.

##### Benchmark-unaware and high conviction

Allan Gray will not buy a security simply because it is in the S&P/ ASX 300 Accumulation Index (Benchmark) – we have to assess it as offering value as an investment. Allan Gray will also buy significant positions in securities that it believes may offer outstanding value even if these securities are not in the Benchmark.

##### Defined investment restrictions

The Fund has detailed investment restrictions/limits, as outlined below in section 5 'How we invest your money'. The Fund is unable to purchase investments that are outside these restrictions unless Equity Trustees and Allan Gray agree that the investment is not a material departure from the investment restrictions.

##### Focused on the longer term

In a competitive market it is difficult to have an edge. Focusing on the long term and being patient is one of the few advantages that we believe will endure. Not many investors can be patient and wait for value to emerge, as they respond to pressure to generate 'instant' performance. The Fund seeks to look past the short-term noise and wait patiently for the value in Allan Gray's selected securities to be recognised by the market. In this way, the Fund's investments often have a long-term focus of five to ten years.

You should read the important information about other features of the Fund in the Information Booklet before making a decision.

Go to [allangray.com.au/PDS-TMD-documents](http://allangray.com.au/PDS-TMD-documents) for a copy of the Information Booklet. The material relating to the Fund's other features may change between the time when you read this PDS and the day you acquire units in the Fund.

#### Significant benefits of the Fund

##### To increase long-term outperformance potential by investing differently

If you invest in the same securities as the majority of investors at the same time, it is by definition almost impossible to outperform the market. The Fund looks to buy Australian securities when others are selling, and sell when others are buying. This can give the Fund an edge, as it can face less competition and pay a lower price for securities that are out of favour with the broader investment community.

##### To improve the opportunity of upside

Taking a contrarian approach can improve the Fund's chance of paying a lower price and therefore achieving a better-than-average return. By looking in unpopular areas of the market, the Fund may uncover compelling opportunities.

##### To reduce the risk of permanent loss of capital

Conversely, speculative over-optimism can drive share prices way above fair value, increasing the risk of paying inflated prices and potential permanent loss of capital. By investing independently of popular market sentiment, a contrarian approach can potentially help the Fund reduce the risk of overpaying.

## 4. Risks of managed investment schemes

All investments carry risk. Different investment strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risks. The level of returns will vary, and future returns may differ from past returns. The value of investments will vary. This section highlights the significant risks you should consider when deciding whether to invest in the Fund. You may want to consider these risks in light of your risk profile, which will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets, and your risk tolerance.

We do not guarantee the liquidity of the Fund's investments, an investment in the Fund, repayment of capital or any rate of return, or the Fund's investment performance. You may lose money by investing in the Fund or your investment in the Fund may not meet your objectives.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

### Sharemarket and individual investment risks

Sharemarkets and investments are generally volatile. As the Fund aims to be fully invested, the value of your investment in the Fund may fluctuate with the sharemarket. In addition, losses for the Fund may also not be linked to the sharemarket's overall returns. Such losses can arise for reasons specific to a company (e.g. a change in management) or if Allan Gray makes investment decisions resulting in poor returns.

### Fund risk

The Fund could terminate, laws affecting registered managed investment schemes may change in the future, Equity Trustees or Allan Gray could become insolvent, and the fees and expenses could materially change. Investing in the Fund may give different results than investing directly in securities because of income or capital gains accrued in the Fund and because of investors redeeming from the Fund.

### Liquidity risk

The Fund may, at times, buy securities which have limited levels of liquidity. Abnormal or difficult market conditions, inadequate market depth or disruptions to financial markets may result in normally liquid assets becoming illiquid or less liquid. As such, it may not be possible to sell the Fund's investments in time to pay unexpected large redemptions or there could be a significant delay before redemptions are paid. The ability to redeem may be suspended in the interests of all the investors in the Fund, even if other assets of the Fund may be readily sold.

### Contractual risk

The Fund's counterparties may default on a transaction or the Fund's custodian may become insolvent. If this occurs, there may be additional costs or time delays associated with settling a transaction or appointing another custodian. This may have an effect on your ability to invest in, or redeem from, the Fund.

### Derivatives risk

The Fund's derivatives exposure is predominantly limited to buying ASX-listed futures contracts to maintain the Fund's exposure to the ASX pending a decision on how to invest the

Fund's cash. Trading in futures contracts does expose the Fund to the following risks:

- the loss of value because of a sudden price move
- potential illiquidity of the futures contract, and/or
- the inability of the Fund or the counterparty to meet margin payments.

### Key personnel risk

The Fund depends on the expertise of Allan Gray and its employees. The Fund's performance could be negatively affected if Allan Gray does not retain key employees.

### Unforeseen event risk

Catastrophes that interrupt the expected course of events, such as natural disasters, war, civil disturbance, acts of terrorism, power outages, health crises and other unforeseeable and external events, and the public response to our fear of such diseases or events, may have an adverse effect on the economies and financial markets either in Australia or worldwide and consequently on the value of the Fund's investments.

## 5. How we invest your money

### Fund investment profile

#### Benchmark

S&P/ASX 300 Accumulation Index.

#### Investment objective

To seek long-term returns that are higher than the Benchmark.

#### Investment exposure

Predominantly Australian listed securities.

#### Investment approach

The Fund employs the Allan Gray contrarian investment philosophy to search for ASX investments based on defined investment restrictions (see Asset allocation below).

### Investor profile

Before you invest, you should consider the likely investment returns, the risk and your investment time frame.

#### Minimum suggested time frame

More than five years.

#### Risk level

High risk.

#### Investor suitability

The Fund may be suitable for investors:

- looking for a contrarian investment style exposure to the Australian sharemarket;
- who are able to take a long-term view; and
- who can endure performance fluctuations.

### Investment restrictions

Allan Gray is permitted to make an investment which is not consistent with the investment restrictions if Equity Trustees and Allan Gray agree that the investment is not a material departure from the investment restrictions.

### Consideration of labour standards or environmental, social or ethical factors

Equity Trustees has delegated the investment function (including environmental, social and governance (ESG)

responsibilities) to Allan Gray and Allan Gray has contemplated that 'Labour, Environmental, Social and Ethical considerations may be taken into account in relation to the investment of the fund'.

As part of our assessment of a company's intrinsic value, Allan Gray examines all factors we consider to be materially relevant to an investment's long-term, sustainable earnings potential, including any ESG factors. Our assessment of whether the factor is material may differ between investments ideas.

Allan Gray assesses whether all identified, material risks (including ESG risks) are reflected in an investment's price. This is done on an ongoing basis and feeds into our continuous assessment of an investment's true value.

Allan Gray will only invest where we consider that the price of an investment is sufficiently discounted to reflect identified risks. Where we consider that there is not a sufficient discount to the price, we may (among other options):

- reject an investment idea;
- take this into account in deciding the position size that we are prepared to hold in a particular investment;
- wait for the price to fall to a level that sufficiently reflects the identified risks;
- wait to see if management adequately addresses those risks.

Allan Gray may use its platform of ownership to proactively engage with the board and management team to address ESG risks, among other risks. We also seek to exercise the Fund's voting rights effectively. Our guiding principle in respect of each is to act in what we believe to be the long-term financial interest of clients as a whole.

We will incrementally realise an investment when we consider its price is more reflective of our assessment of its intrinsic value.

### Asset allocation

Allan Gray will implement the above strategy by adhering to the following investment restrictions. These restrictions are measured at a Fund level, and not at a Class level.

<b>1. Weights</b>	The Fund's weight for a specific share shall not exceed that share's weight in the Benchmark by more than 10 percentage points.
<b>2. Holdings</b>	The Fund will not hold more than 10% of a company's issued voting shares.
<b>3. Listed securities</b>	The Fund aims to be fully invested in the Australian sharemarket, and no more than 100% of the Fund's net asset value will be invested in securities listed on the ASX.
<b>4. Exposure</b>	Allan Gray may not actively reduce the effective share exposure to below 90% of the Fund's net asset value.
<b>5. No leverage</b>	The effective share exposure shall not exceed 100% of the Fund's net asset value.
<b>6. Options</b>	No more than 5% of the Fund's net asset value may be invested in call options.
<b>7. Derivatives</b>	The Fund may invest no more than 10% of its net asset value in listed futures contracts for the primary purpose of managing liquidity and only if the underlying exposure is fully covered by cash or money market instruments.
<b>8. Borrowing</b>	The Fund cannot borrow unless it is to meet unexpected large redemptions. Borrowing is limited to 10% of the Fund's net asset value and must be repaid within 90 days.
<b>9. Investment grade</b>	Any investment by the Fund in interest-bearing non-equity linked securities is restricted to Investment Grade Securities.

## 6. Fees and costs

### Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from AUD 100,000 to AUD 80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

### To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website ([moneysmart.gov.au](http://moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

## Fees and Costs Summary

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see section 7 'How managed investment schemes are taxed'.

### Allan Gray Australia Equity Fund – Class B

Type of fee or cost	Amount	How and when paid
<b>Ongoing annual fees and costs<sup>1</sup></b>		
<b>Management fees and costs<sup>2</sup></b> The fees and costs for managing your investment	Nil	Not applicable
<b>Performance fees</b> Amounts deducted from your investment in relation to the performance of the product	0.02% of the net asset value of the Class <sup>3</sup> . A performance fee is calculated at a rate of 35.88% of the Class' outperformance in comparison to its Benchmark. A performance fee is only accrued and payable where the Class' outperformance exceeds the high water mark, which represents the highest level of outperformance since the Class' inception.	Performance fees are calculated daily and paid monthly in arrears from the Class and are reflected in the unit price.
<b>Transaction costs</b> The costs incurred by the scheme when buying or selling assets	Nil	Transaction costs are variable and deducted from the Fund as they are incurred and reflected in the unit price. They are disclosed net of amounts recovered by the buy-sell spread.
<b>Member activity related fees and costs (fees for services or when your money moves in or out of the scheme)</b>		
<b>Establishment fee</b> The fee to open your investment	Not applicable	Not applicable
<b>Contribution fee</b> The fee on each amount contributed to your investment	Not applicable	Not applicable
<b>Buy-sell spread</b> An amount deducted from your investment representing costs incurred in transactions by the scheme	0.20% upon entry and 0.20% upon exit	These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding redemptions from the Fund and are not separately charged to the investor. The buy spread is paid into the Fund as part of an application and the sell spread is left in the Fund as part of a redemption.
<b>Withdrawal fee</b> The fee on each amount you take out of your investment	Not applicable	Not applicable
<b>Exit fee</b> The fee to close your investment	Not applicable	Not applicable
<b>Switching fee</b> The fee for changing investment options	Not applicable	Not applicable

1. All fees quoted are inclusive of Goods and Services Tax (GST) and net of any RITC. See below for more details as to how the relevant fees and costs are calculated.

2. The management fee component of management fees and costs can be negotiated. See 'Differential fees' in the Information Book.

3. The reasonable estimate of the performance fee is based on the average of the actual performance fees paid for the Class over the previous five financial years, which is payable as an expense of the Class to Allan Gray as the investment manager.

## Additional Explanation of Fees and Costs

### Management fees and costs

Allan Gray has agreed to pay the management fees and costs including amounts payable for administrating and operating the Class, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable from the performance fees it receives from

the Class. In the event that Allan Gray does not earn a performance fee, it will bear these managements fees and costs itself.

Aside from the management costs as described above, investors may bear certain extraordinary and unusual expenses incurred on behalf of the Fund from time to time, such as the cost of litigation.

### Performance fees

The performance fees include amounts that are calculated by reference to the performance of the Class.

A performance fee is calculated at a rate of 35.88% of the Class' outperformance in comparison to the Fund's Benchmark. A performance fee is only accrued and payable where the Class' outperformance exceeds the high water mark, which represents the highest level of outperformance, since the Class' inception. Performance fees are calculated daily and paid monthly in arrears from the Class and are reflected in the Class unit price.

The reasonable estimate of the performance fee is 0.02% and is based on the average of the actual performance fees paid for the Class over the previous five financial years, where each performance fee relevant to the Class is averaged and totaled to give the performance fees for that class, which is payable as an expense of the Class to Allan Gray as the investment manager.

Please note that the performance fees disclosed in the Fees and Costs Summary are not a forecast as the actual performance fee for the current and future financial years may differ and may be higher depending on performance. Equity Trustees and Allan Gray cannot guarantee that performance fees will remain at their previous level or that the performance of the Class will exceed the Fund's Benchmark.

It is not possible to estimate the actual performance fee payable in any given year, as we cannot forecast what the performance of the Class will be. Information on current performance fees will be updated from time to time and be made available at [allangray.com.au/PDS-TMD-documents](http://allangray.com.au/PDS-TMD-documents).

### Financial adviser fees

You may elect to have the Fund pay your financial adviser a fee from your investment in the Fund. This may be:

- a contribution fee of up to 2% when you invest in the Fund, and/or
- an ongoing fee of up to 1% p.a.

**Note:** The financial adviser you consult may charge you additional fees. Please refer to the adviser's statement of advice.

### Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current total management fee (which does not include the performance fee) to which Equity Trustees and Allan Gray are entitled is 0.00% of the net asset value of the Class. We will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs.

You should read the important information in the Information Booklet about other fees and costs before making a decision.

Go to [allangray.com.au/PDS-TMD-documents](http://allangray.com.au/PDS-TMD-documents) for a copy of the Information Booklet. The material relating to these matters may change between the time when you read this PDS and the day you acquire units in the Fund.

## Example of annual fees and costs

This table gives an example of how the ongoing annual fees and costs in the Fund can affect your investment over a one-year period. You should use this table to compare this product with other products offered by managed investment schemes.

Example	Balance of AUD 50,000 with a contribution of AUD 5,000 during the year	
Contribution fees	Nil	For every additional AUD 5,000 you put in, you will be charged AUD 0.
PLUS Management fees and costs	0.00%	And for every AUD 50,000 you have in the Fund you will be charged or have deducted from your investment AUD 0 each year.
PLUS Performance fees	0.02%	And, you will be charged or have deducted from your investment AUD 10 in performance fees each year.
PLUS Transaction costs	Nil	And, you will be charged or have deducted from your investment AUD 0 in transaction costs.
EQUALS cost of fund		If you had an investment of AUD 50,000 at the beginning of the year and you put in an additional AUD 5,000 during that year, you would be charged fees and costs of: AUD 10*. <b>What it costs you will depend on the investment option you choose and the fees you negotiate.</b>

\* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the buy/sell spread. These examples assume the AUD 5,000 additional contribution occurs at the end of the first year, therefore the fees and costs are calculated on the AUD 50,000 balance only.

**Warning:** If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on [moneysmart.gov.au](http://moneysmart.gov.au), which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on the average performance fee for the Class, generally over the previous five financial years. The performance of the Fund or Class for this financial year, and the performance fees, may be higher or lower or not payable in the future. It is not a forecast of the performance of the Fund or Class or the amount of the performance fees in the future.

The other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

## 7. How managed investment schemes are taxed

**Warning:** Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice before investing in the Fund. The Fund is an Australian resident for tax purposes and does not pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund.

The Fund has been treated as an Attribution Managed Investment Trust since the 2016/2017 income year. Investors receive a tax statement at the end of each income year specifying the nature of any amounts attributed. This statement also highlights any adjustments you should make to the cost base of the units you hold due to distributions from the Fund and income attributed.

## 8. How to apply

### How to make an initial investment

- Invest online: visit [allangray.com.au/equityfund](http://allangray.com.au/equityfund), click on 'Invest now' and follow the instructions, or
- Complete the application form accompanying this PDS, as well as the customer identification form. Identification documents are needed to comply with Australia's AML/CTF laws.
  - Post the original application, identification forms and relevant identification documents to the Allan Gray Funds Unit Registry, GPO Box 804, Melbourne VIC 3001.
  - Transfer the application money electronically to the Fund. The Fund only accepts application money in Australian dollars, or
- Invest through a platform. To do so, you will need to provide certain identification documents and the application money to the platform operator instead of directly to the Fund. Additional fees may apply. Please contact the platform operator for more information.

### How to make an additional investment

- Visit [allangray.com.au/equityfund](http://allangray.com.au/equityfund), click on 'Investor top up' and follow the instructions, or
- Complete an additional investment form, available from [allangray.com.au](http://allangray.com.au), and follow the instructions on the form, or
- Invest through your chosen platform.

Sending your application and redemption forms and any other forms or documents to us by post, email or over the internet means you agree to the Instruction Terms set out in section 3.6 of the Information Booklet.

### Cooling-off rights and complaints

If you are a retail client (as defined in the Corporations Act) and invested directly in the Fund, you have up to 14 days from the day you receive the investment confirmation for your investment to be repaid. The amount you receive will reflect the movement (up or down) in the Fund's unit price and may have tax implications for you.

If you wish to make a complaint, please write to Equity Trustees' compliance team or call +61 3 8623 5000.

### You should read the important information about:

- (1) your general rights and obligations, the Fund's Constitution and our responsibilities, and
- (2) investing, managing and redeeming your investment, in the Information Booklet before making a decision.

Go to [allangray.com.au/PDS-TMD-documents](http://allangray.com.au/PDS-TMD-documents) for a copy of the Information Booklet. The material relating to your rights and obligations dealing with the acquisition and disposal of units may change between the time when you read this PDS and the day when you acquire units in the Fund.

## Important notices

In this document:

**'AML/CTF'** means Anti-Money Laundering and Counter-Terrorism Financing.

- agree to inform EQT, Allan Gray and their delegates as soon as any information in this form is no longer true or correct within 30 days of any change in circumstances, and
- acknowledge and agree that EQT, Allan Gray and their delegates may be required by law to pass on the information contained in this form to relevant taxation authorities including the US Internal Revenue Service, HMRC and the Australian Tax Office.

## Signing instructions

Individual/Sole Trader – where the investment is in one name, the account holder must sign.

Joint Holding – where the investment is in more than one name, all of the account holders must sign.

Companies – where the company has a sole director who is also the sole company secretary, this form must be signed by that person. If the company (pursuant to section 204A of the Corporations Act 2001) does not have a company secretary, a sole director can also sign alone. Otherwise this form must be signed by a director jointly with either another director or a company secretary. Please indicate the capacity in which this form is signed.

Trust – the trustee(s) must sign this form, as permitted by the trust deed (for example if the deed says two

trustees must sign, then this form must be signed by two trustees). If the trustee is a company, then the signing instructions under 'Companies' apply. Trustee(s) signing on behalf of the trust confirm that the trustee(s) is/are acting in accordance with such designated powers and authority under the trust deed.

Power of Attorney – if you have not already lodged the Power of Attorney with us, please attach a copy of the Power of Attorney, certified on every page. You will also need to give us a certified copy of photo identification to satisfy Anti-Money Laundering requirements.
