

Allan Gray Australia Equity Fund (Class B)

FUND FACT SHEET 31 OCTOBER 2019

ALLAN GRAY
CONTRARIAN INVESTING

Using Allan Gray's contrarian investment philosophy, the Fund seeks to provide a long-term return that exceeds the S&P/ASX 300 Accumulation Index (Benchmark).

INVESTMENT APPROACH

The Fund's investment approach is to buy securities that offer long-term value, that are currently unpopular with the general investment community or are not well known. Allan Gray will not buy a security simply because it is in the Benchmark. Similarly, Allan Gray will buy significant positions in securities that are not in the Benchmark if they offer outstanding value, based on our bottom-up, fundamental valuation of the opportunity.

In implementing the Fund's strategy, Allan Gray adheres to detailed investment restrictions and limits, as set out in the Fund's Product Disclosure Statement and accompanying Information Booklet (together, the PDS).

The Fund offers you a choice in fee structures. This fact sheet relates to Class B which only charges a performance fee. You can choose to pay a base fee and smaller performance fee with Class A.
